Why code

It's popular

Technical skills are in high demand. Over 60% of new jobs worldwide will require tech skills.

It's promising

Unlock your earning potential! Entry-level programmers in the U.S. earn on **average over $76,000 in salary.**

It's fun

Imagine combining your passion and skill with your creativity, and **making something new everyday!**

I want to code

Invest in yourself with PRO

Unlimited practice

2x

Pro users are twice as likely to incorporate practice in their learning plan

Ad-free experience

+132%

Pro users spend **132%** more time learning than regular ones.

Habit formation

92%

Pro users that set up daily goals have the highest lesson completion rate of **92%!**

✓ Unlimited practice ✓ Ad-free experience ✓ Progress statistics ✓ Daily goals
✓ Habit building features ✓ Lesson shortcuts ✓ Real life challenges

The Success Story of Hatsy

"One day at the library, I noticed a stranger using an app that featured tutorials, questions, and exercises for C++ programming. It was Sololearn. I thought, "Neat, learning on your mobile phone!" I was just starting to learn to code and I made all the usual beginner mistakes, so I gave Sololearn a try. Through Sololearn, I have found many learners who have helped me grow. I have met teachers, engineers, developers, data scientists, and more amazing people. The learning environment created by Sololearn served as a catalyst for me to pick up good practices, which go beyond learning and into the workplace."
Hatsy Rel, June 05, 2020
